

With over 26 years of experience and knowledge, I offer you this knowledge and experience to help with your computer problems.

I can assist you as you were already habituated to all relevant issues with your computer or computer programs or peripherals, with one phone call, you have access to personal assistance system.

For advice for your purchases or network management for SMEs, you've come to the right place.

The website can already tell you what you want to know, you need more information, then a call is enough.

I hear or see you happy,

Private ICT assistance

Jan Breedijk
